CAREER SUMMARY

Detail-oriented Automation Test Engineer proficient in Python, Selenium WebDriver, and PyTest. Delivered 2 full-lifecycle test automation projects with modular Page Object Model design. Skilled in robust locator strategies, PyTest fixtures, assertions, and detailed HTML reporting. Eager to contribute strong problem-solving skills to build scalable test suites for web applications.

EDUCATION

Bachelor's degree Computer Science and Engineering	2022-2026
University College of Engineering, Villupuram	7.9 CGPA
Higher Secondary Vani Vidyalaya Matric Higher Secondary School	2020-2021
Namakkal	88%

SKILLS

Python | Selenium | WebDriver | PyTest | API Testing | Postman | Microsoft Excel | Computer Troubleshooting | Problem Solving | Adaptability | Team Collaboration | Time Management.

PROJECTS

An AI Powered Road Safety Management and Accident Detection Using Yolo and LSTM network| Final Year Project

- Developed an intelligent accident detection system using YOLO and Long Short-Term Memory (LSTM) networks to identify road accidents from real-time video streams by analyzing object movements and temporal patterns
- Performed model testing, data preprocessing, and system optimization while enhancing analytical, problem-solving, and teamwork skills.

Flipkart-Product-Search-Automation Using Python with Selenium

- An automated test script for Flipkart using Python, Selenium, and PyTest following the Page Object Model (POM) pattern. Automated product search, multi-window tab switching, and Add-to-Cart flows using WebDriverWait and custom XPath locators.
- Handled dynamic web elements, SVG icons, and multi-tab browser navigation while capturing automated screenshots for visual verification.

REST API Testing & Documentation:

- Built Postman test collections verifying authentication endpoints (login/register edge cases) and compiled automated API documentation using Docgen CLI.

CERTIFICATES

NEURONIX'26 – National Level Conference

- Participated in the National Level Conference on *Next Generation Electronics, Circuits & Intelligent Signal Systems* held on 25 March 2026. Presented a conference paper and received a participation certificate for technical presentation and research contribution.

TechXplore'25 - National Level Project Contest

- Participated in the National Level Project Contest on Mailam Engineering College held on 26 March 2025. Presented my Project “Smart LAN Based Monitoring using Flask and Flutter” and received a participation certificate for presentation.

LANGUAGES

- English, Tamil
